To Whom It May Concern

I have been working together with Dr Valentina Szabo for 5 years. In that time she has shown that she has a depth of medical knowledge.

Dr Valentina Szabo is a highly intelligent and self motivated person. She is a leader and can readily find the essential issue and critical component in any situation and is able to summarise complex issues.

Dr Valentina Szabo has an excellent ability in combining her clinical knowledge with the diagnostic process and as a result has helped many patients. Dr Valentina Szabo treats her patients with sensitivity and care.

Dr Valentina Szabo has good communication skills. She has shown herself to be very considerate, reliable and competent. I believe she has the tenacity to follow a research project through.

Currently, Dr Valentina Szabo has started her own business in biomedicine. Her medical, ultrasound and naturopathic education and interest in alternative treatments would seem a suitable background in the area she has chosen.
