TESTIMONIAL

The Paediatrics Section of the Medical Faculty of the Kiev Medical Institute (now the Ukraine State Medical University) has the honour to commend to our colleagues in paediatrics Dr Valentina ANDRUSHCHENKO, who after completing medical studies at the Medical Institute and working as a paediatrician commenced and successfully completed post-graduate clinical practical training in this Department. During her period of post-graduate clinical practical training, as well as increasing her knowledge of paediatrics, Dr Andrushchenko participated in the scientific research projects carried out by the Department studying the status of the immune system and morbidity of children from various regions of Ukraine, and the development of preventive and treatment methods for improving children's health. She showed herself to be a thoughtful, reliable and competent worker.

Head of Paediatrics Department, Medical Faculty
Doctor of Medicine, Professor O.V. Tyazhka [signature]
