TESTIMONIAL

The "SOS Chernobyl" International Association, a private non-profit charitable organisation which works on the medical issues involved in dealing with the aftermath of the accident at the Chernobyl nuclear power station, hereby commends paediatrician Valentina Andryushchenko, as a specialist and our colleague in eight years of working together.

On the basis of our many years of working on the provision of medical assistance and medication to victims in areas with radiation pollution and high-risk ecological areas, in the disaster zone and other regions, I am able to confirm that Dr Andryushchenko has showed herself to be a highly skilled specialist, who has succeeded in introducing and making extensive use of new and progressive treatment methods and know-how in primary health and medical care. She monitored the introduction of new immunomodulators, phyto-radioprotectors, specialised anti-oncological food additives and anti-oxidants. Dr Andryushchenko is a highly promising specialist and an excellent doctor, who has a pleasant personality and is very gifted intellectually.

Vice-Chairperson and Lecturer, L.G. Moskalenko (PhD) [signature]

I, Bryce Gunn, Translation Express Pty Ltd, hereby certify that this translation was made by a person employed by this company who is fully conversant with the Russian and English languages and was verified by me, and that this is to the best of my knowledge and belief a true and accurate translation into English of the original document in Russian.
